## Death takes Judge Noonan

Judge Ralph J. Noonan, 91, of Hondo died September 3, 1972 at Brown's Nursing Center.

Born in San Antonio on March 31, 1881, he was married to Grace Schuhart, who preceded him in death. Judge Noonan was the son of George H. and Cornelia P. Bowen Noonan, both deceased.

Survivors include two sons, Ralph Noonan, Jr. of Blanding, Utah; and Martin Noonan of Hondo; and a daughter, Mary Ann (Mrs. Henry) Guerra, of San Antonio.

He is also survived by eight grandchildren, and one great-grandchild.

Judge Noonan served Medina County as an attorney in a 50-year career. Born on Bowen's Island, named after his maternal grandfather, Noonan attended schools in

San Antonio and in the Eastern United States. He was a 1910 graduate of the University of Texas Law School.

Noonan spent his early life on his father's ranch in Medina County, then known as the Circle-dot, the largest horse ranch in the Southwest. Many of the Circle-dot products were ridden by men of the Mexican Army near the turn of the century.

George H. Noonan, his father, had been a judge and U.S. Congressman in Reconstruction-era San Antonio. Bowen's Island, near the present site of the Tower Life Building, was a station along the "underground railroad", which aided escaping slaves in their quest for freedom in the North before the Civil War.

Moving to Castroville, and later to Hondo, Judge Noonan attended schools in

## VFW Post seeking members

A big membership barbecue is planned Monday night by VFW Post #3891 in the Hondo City Park.

In addition to the barbecue Post members will host a happy hour blasting off the 1973 Membership year. Time for the big event will be 7:30 p.m.

"All present and former members have been notified of the event," says Commander Rudy J. Proctor, Jr. "And we are extending an invitation to attend to those who have never enjoyed a VFW membership. This includes the Vietnam veteran as well as any other veteran who has served overseas anywhere anytime."

### APPREHENDED

Hondo Police Patrolmen Reyna and Pruneda have apprehended two men charged for an alleged murder in Raleigh, North Carolina.

Mac Fish and William C. Davis were hitchhiking in the early hours of Monday morning in Hondo when they were picked up by the policemen. A routine check revealed that the two men were wanted in North Carolina on that charge.

## Folklife Festival to offer exciting time for Texans

Four years in the planning, the first Texas Folklife Festival to be held September 7-10 at the Institute of Texan Cultures in San Antonio will be the biggest food fiesta ever staged in Texas.

Hailed as the greatest Folk Gathering, the festival features a variety of foods, dancing, entertainment, arts, crafts, games, contests plus a frontier life section all designed to show how Texans of all origins have fun.

More than 1,000 participants from 84 Texas cities and towns will take over the 13-1/2 acre HemisFair site

of the Institute for the four-day event.

The festival will be open: Thursday and Friday, Sept. 7-8, 5 p.m. to 11 p.m.; Saturday and Sunday, Sept. 9-10, 1 p.m. to 10 p.m.

Admission to the festival is \$1 for adults and 50¢ for children under 12 years of age. Special group rates for 20 or more are available.

Entertainment will be continuous through the operating hours. Five area and one major stage will showcase the talents of over 265 entertainers and 279 dancers.

Twenty ethnic groups will

participate including Anglo-American, Belgian, Chinese, Czech, French-Cajun, German, Greek, Indian, Irish, Italian, Japanese, Jewish, Lebanese, Mexican, Negro Polish, Scots, Swedish, Spanish, Wendish.

In addition, 19 area festivals and annual events across the state are sending samplers to entertain festival visitors.

Although the festival will be highlighting the numerous ways Texans of all ages and national origins have had fun, food will be the stellar attraction and a visitor to the

statewide celebration can sample a world smorgasbord of tasty tidbits.

Visitors can sample the savory goodness of such tantalizing dishes as German sauerbraten, Cajun crawfish, Mexican tacos, Czech Kolachis, Jewish pastries, Irish stew, Polish sausage or Italian spaghetti.

If your fare is more to "Home on the Range" style you will find spicy "Bowls of Red" (Texas chili), rugged son-of-a-gun stew, and the cowboy favorite, beef and beans, all prepared by range

# Screwworm problem critical, says Bragg

By GLENN BRAGG  
Medina County Agent

The Southwest Animal Health Research Foundation met in San Antonio Saturday, August 26, to discuss the screwworm situation and the

trustees approved a resolution urging livestock and agricultural organizations to take immediate action to eradicate the screwworms.

Those attending the meeting from Medina County were

Glenn Bragg, CAA, and Hartley Howard, livestock producer from Devine.

The resolution adopted stated, "The Trustees of the Southwest Animal Health Research Foundation urge live-

stock and agricultural groups to urge the National Congress, State Legislatures, and Agricultural Groups to provide sufficient funds to operate the Mission Screwworm Eradication Plant at full ca-

capacity and to provide funds to build and operate a plant in Mexico until the screwworm is eradicated." This resolution was presented by T. A. Kincaid.

It was pointed out at the meeting that Dr. Meadows, Southwest Animal Health Research Foundation official, predicted the screwworm outbreak well before it occurred. However, sufficient funds were not available to run the plant at capacity and Northern Mexico had a very mild winter. The officials stated that they were absolutely certain that no fertile flies were released.

The plant at Mission can presently operate at full capacity (200 million flies per week) until September 15 with present funds, and officials indicated that they will continue to operate at full capacity even though they are not sure where the funds will come from.

An additional \$2.2 million is needed to operate the Mission Plant for the rest of the year (until June 30, 1973).

U.S. Representative O. C. Fisher said, "I believe you are in excellent shape to get the \$2.2 million." He indicated producers could present a strong case to Congress.

Dolph Briscoe, Uvalde Democratic nominee for governor, thinks the original purpose of Southwest Animal Health Research Foundation will be realized when the Mexico plant in the Gulf of Tehuantepec goes into operation. That purpose is the eradication of the screwworm.

The formal agreement between Mexico and the U.S. was signed Monday, August 28, by Secretary of Agriculture, Earl Butz, and Manuel Aguirre, Mexican Secretary of Agriculture and Livestock. Operation of the plant is expected to begin in the fall of 1973.

"Producers in Medina County are very concerned with the screwworm situation," said Bragg, "however, there are some comments being made that have no validity. Sterile flies are being released in Medina County at a rate of 3200 per square mile per week. It will be impossible to remove the screwworm fly from Medina County until cold weather

## Owls open season

### BULLETIN

The Hondo Floresville football game will be played in Floresville Friday night. This decision was made by the Tiger football players, coaches and school administration.

BY JOE FOHN  
Herald Sports Editor

The long march begins tomorrow ... The Owls will begin a new year and a new assault on the record books at 8 p.m. tomorrow night; but it all has to begin at Floresville, and it has to continue one game at a time from then on.

It's a new year for many football players, who haven't played a down of varsity ball before but will begin Friday night. It's also the first season as head coach for James Bohls, a veteran assistant coach with some big shoes to fill.

As for the Tigers, they almost made it to a district championship last year, in South Zone District 14-AAA, but undefeated Cuero put the only blot on Floresville's 9-1 record. (Incidentally, Cuero's own record received its initial blemish in the District Championship game against also-undefeated North Zone king Uvalde, who pummeled them 35-0.)

The Tigers run from a Houston-Veer offense, with two running backs set behind the guards, and a flanker. From this set, it's possible to pass or run an option series, and with good personnel, it is hard to defend against. Floresville is described by Hondo coaches as "big and strong".

Defense is what the Owls did best at Boerne last Friday night, holding them to no score and very little yardage. The defensive squad looked solid at all points and drew the praise of the coaching staff.

The other side of the coin, the offensive team, was not as polished or as consistent as

## Floresville player dies

Hondo residents were saddened Wednesday to learn of the death of the Floresville Tiger football player Jeffrey Raska.

Raska, a senior, was in practice Tuesday afternoon and went in to block an extra point. It was reported he could have hit a knee or something, but got up again. He then walked around several steps and collapsed.

All efforts to save him failed and he died later Tuesday night of an apparent heart attack. His funeral was scheduled this morning (Thursday).

Hondo residents feel very close to the Floresville people in this tragic moment. They know what it means for approximately 15 years ago a young Hondo Owl Pilar Cantu died from an injury sustained in football practice.

## Diez y seis brings Fiesta Entre Amigos

Fiesta Entre Amigos, the annual Hondo event which marks Mexico's Independence Day on Diez y Seis, promises exciting action when it holds forth at the West End grounds this year.

Climaxing the popular affair will be the crowning of the new Queen who will be chosen from these candidates: Della Garcia, Lupita Rodriguez and Rose Marie Contreras.

Doing the honors of placing the crown on the new

Queen will be Rosita Fernandez, star of San Antonio's Fiesta Noche del Rio and a noted singer of Mexican songs.

Adding their talents to the gala evening event by performing several regional Mexican dances will be Magda and Roberto and their dancers. They also are members of the famed San Antonio Fiesta Noche del Rio.

Jose Ramos, a member of the Mexican Consulate in San Antonio, has tentatively agreed to participate in the growing Hondo celebration, if his schedule permits.

Diez y Seis celebration has a dual purpose. It makes a colorful observance of Mexico's Independence Day, and at the same time benefits St. John's Catholic Church in Hondo. All proceeds from the event go to the Church.

### MEETINGS

The Commissioners Court meets Monday at the Courthouse and the Hondo City Council meets on Tuesday night in the Municipal Bldg.

### TO PERFORM IN HONDO

### RURAL DEVELOPMENT

... might have received a helping hand last week when President Nixon signed a bill authorizing a rural development program.

That is if rural people want to be helped. The legislation, which Nixon complained provides for grants and concentrates more decision making in Washington, authorizes government-insured and guaranteed loans for commercial and industrial development in towns under 10,000.

A recent article in the Christian Science Monitor gave excellent coverage to the plight of small, rural towns. It stated that help is needed from the Federal government and the State government, but went on to say:

"But no matter how much money the Federal and State governments pour into a rural development program it will not work without the strong desire of local residents for industrial development and their willingness to work toward this achievement."

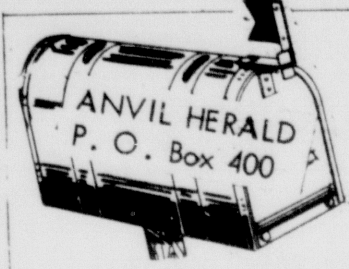

Herein lies the difference between success and failure in developing an area. Do the people want development strongly enough to work for it?

There is no doubt but that we need more industry in Hondo and Medina County--either through new industries or expansion of present industries.

And this new legislation might just be what we need to do one or both. First, we must want additional industry (and there are those in town who will tell you like they told me: "Hondo is just the right size, let's don't make it any larger." I am not certain

## Letters from the mailbox

Dear Mr. Lawrence:

Without a doubt, the 1972 St. Louis Day Celebration in Castroville this past August 20 was the biggest and best ever.

About 15,000 to 20,000 persons from all over the world were brought together in the "Little Alsace of Texas" to eat barbecue and country sausage, visit and take part in all types of entertainment.

The tremendous success of this year's "Homecoming for Texas" became a reality through the untiring efforts and hard work of many, many people.

All the help of the entire staff of the Hondo Anvil Herald coupled with the extensive coverage of the celebration events in your fine newspaper, played a major role in our success story this year.

Many thanks for all the assistance you rendered this year, not to mention all the help in years gone by. May we continue to work together in the future.

Thanks again and may God bless you!

Sincerely yours,

Dear Mr. Filleman and members of the Hondo Chamber of Commerce:

I want to express my sincere appreciation to you and the Agricultural Committee of the Chamber of Commerce for the financial and physical assistance you provided during the Medina County Crops Tour and the Agricultural Finance Seminar held recently. It is only with the assistance and support of organizations such as yours that Extension Programs such as these can be successful.

Thank you very much,  
Sincerely,

Dear Mr. Lawrence:

We want to take this opportunity to thank you and the Hondo Anvil Herald for your outstanding support in publicizing our recent information meeting held at the Hondo City Hall. Due to your fine cooperation, we had an excellent attendance of Medina County residents who were interested in adoption and foster care.

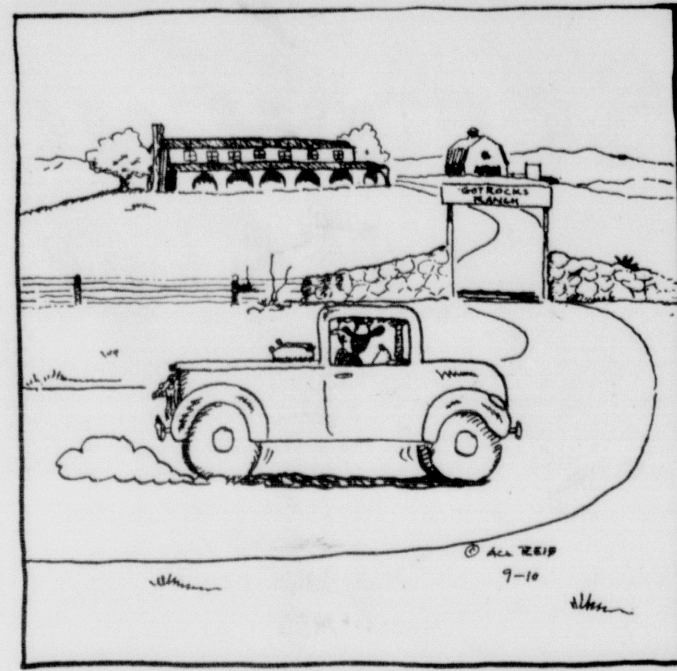

In addition to the 60 persons attending our meeting, we have also had many inquiries before and after, which have been a direct result of the coverage you have given us.

Therefore, let us again say thank you for your help on behalf of those children who will benefit from having adoption and foster homes available in Medina County.

Sincerely,  
Mrs. Delma Tovar

## Texas Baptists will love The Texas Star on Sunday

Baylor University, one of the best-known, least understood schools in Texas, is featured in Sunday's Texas Star magazine.

The university has changed drastically since a handful of hardy Baptists organized her 127 years ago. Yet, despite modernized curfews and dress, her original goal has never changed: to combine the best in education with a strong Christian emphasis. Thomas Turner dispels some of the myths of this

Baptist citadel in Sunday's supplement.

Another article describes The Ship, a two-story rock vessel on the Concho River in Christoval, which was originally built in the 1940's to be a dance hall. As a result of alcoholic beverages being against the law in the town, the project sank.

Other ventures in the rock building have also run aground and the ship now stands simply as Christoval's

one claim to fame, her "river queen."

Star Hostess Mary Faulk Kooch shares some of the recipes she has received from dedicated recipe clippers. She includes three for homemade ice cream, one for tamale balls, braised leg of lamb, and apricot-barbecued ham with rice.

Editor Jimmy Banks advises in Star Comment that cowardice isn't a bad trait when driving on modern freeways.

## Sen. John Tower discusses the fight against drugs

One of our most critical domestic problems today is the epidemic of drug abuse. Drug abuse has become a Number One public enemy. It has spread from coast to coast. Once confined to our inner cities, drug abuse now is prevalent in our suburbs and is increasingly found in our rural communities.

Drug abuse is taking its greatest toll among the youth of our nation. It has infested our college campuses and is spreading to our high schools and, in far too many instances, even to our elementary schools.

Today, on the streets of America and in the hallways of our schools, a barbiturate capsule can be obtained for only a quarter. All too often other drugs are all too available. One youth, testifying before a Congressional committee, has said that it is easier now to obtain barbiturates than it is to purchase a pack of cigarettes.

Apparently, there is no sanctuary. I have talked with many parents, school authorities and community leaders. There is a growing awareness of the drug abuse problem and a growing determination to deal with it. But we must act swiftly and we must be totally committed. Half efforts are not going to defeat this enemy which is robbing us of our most valuable resource—the productivity, the usefulness, the industry and the pride of the American people.

Committed to Fight  
I am committed to helping to turn back the tide of drug abuse. In the Senate, I supported action to increase law enforcement efforts to keep illicit drugs out of the country and to keep drug pushers out of our neighborhoods. I have worked to expand our treatment and rehabilitation programs so that we can return over 500,000 heroin addicts and millions of amphetamine and barbiturate abusers to productive roles in our society free of addictive habits. Rehabilitation programs will be expensive; but if a significant percentage of current addicts can be returned to productive lives, we will reap a large return on our investment, both financially and socially.

I have also supported expansion of our efforts to educate all Americans about the dangers of drug abuse. Drug abuse feeds on ignorance. We need to throw away the "scare stories" that damage our credibility with our young people with all the facts that we can about drug abuse. Drug abuse is a real danger. If we can educate our society to those dangers, the potential number of addicts, I think, will be greatly diminished.

The Drug Abuse Law Enforcement Program is a major new federal law enforcement program aimed at street-level heroin pushers. The purpose of the program is to bring combined local, state and federal law enforcement pressure to bear on street-level heroin pushers. The program has been established in 33 target cities across the nation. Among those 33 target cities are four in Texas: Austin, San Antonio, Dallas and Houston.

Arrests Rise  
In just three years, the number of arrests for federal narcotics violations have nearly doubled with the aid of this program. In the last year alone, federal narcotic agents seized twice as much drugs in illegal channels nationwide as in the previous year. The Drug Abuse Law Enforcement Program alone has been directly responsible for more than a thousand arrests and for the identification of some 3,000 drug pushers since January of this year.

Under another program, the U. S. Customs Bureau has increased the number of agents working on narcotic cases and further increases are planned. The Bureau has made some 8,000 arrests this year alone, of which some 60% have been along the U. S. border with Mexico. In the Senate, I have co-sponsored several bills designed to enable responsible agencies to more tightly control the manufacture and distribution of amphetamines and barbiturates. Prior to increased regulation, it was estimated that over half of the legitimate production of amphetamines ended up in the illicit drug market. More than a billion, and possibly more than four bil-

lion, capsules were consumed without a doctor's prescription. Unfortunately, the effects, the availability and the low cost of barbiturates and amphetamines have made them extremely attractive as drugs of abuse. Additional regulation has significantly reduced the incidence of amphetamine abuse. I am now working to enact the necessary legislation to impose similar regulations on barbiturates.

The Special Action Office on Drug Abuse and Prevention, set up by legislation I co-sponsored, has provided the federal funds necessary for Texas to develop a comprehensive format of programs for all sections of the State to provide a co-ordinate attack on drug abuse. This program is aiding, and will aid, the attack on drug abuse in many Texas cities.

## Herald to run Harmon

The Harmon Football Forecast, one of the country's most popular sports features, will appear in the Anvil Herald each week during the 1972 football season, starting this week.

In addition to forecasting the results of some 180 games each week, as well as the New Year's Day bowl games, Harmon will rate the top 20 college teams in the nation each week beginning with the forecast for September 23rd. His National Football League pro selections will also be published each week.

Starting his sixteenth year of football forecasting, Bob Harmon has seen the publication of his prognostications grow from three newspapers in 1957 to over 350 newspapers in 1972. His rather fantastic football "snowball" now appears in newspapers of all sizes... dailies, weeklies, and college publications... in 47 states.

Harmon uses a formula to arrive at the rating for each of the more than 640 football teams that he follows each fall. The score that is predicted is simply the interpolated difference between the numerical rating of one team and the numerical rating of its opponent.

how widespread such a feeling is, but I cannot agree with it.)

After we decide we want more industry, then we must be willing to work TOGETHER to obtain it. Right now we have as many splinter efforts as a porcupine has quills. Yet, I think with a little more effort we can concentrate these efforts and work toward the goal of building Hondo.

This new bill means several hundred million dollars for rural development in Texas. It could mean some for Hondo if we don't sit on our duffs and let the opportunity pass us by.

### U.S. BONDED PADDING

. . . is a question high on the list of unanswered at this time, although a strong whisper through the grapevine insists "it's still on".

Many people have asked me about the future of this company which announced last fall that it would begin operations here in April manufacturing carpet padding and eventually employ some 110 persons.

The questions were varied: "What has happened to the plans?" "Have they killed the project?" And on-and-on.

But the one question which was uppermost in the minds of most area residents pertained to the big government loan approved for this project. It amounted to \$667,642, almost half of the proposed \$1,226,500 total projected cost. The remainder was to come from private financing.

"Are they just dilly-dallying around, spending the government money until it runs out?" was the predominant questions.

Answer Sought

So I decided to find an answer to this query. To do so I called U.S. Senator John Tower's office and explained the concern of the local public. In short time, a letter came back from the Senator and said in part:

"... The loan to the U.S. Bonded Padding Company is from the Economic Development Administration, and SBA (Small Business Administration) is closing the loan for the Commerce Department. I am advised that SBA is ready to close the loan, but is unable to do so until the local development company has requested such action. . . if you have further questions contact Mr. Billy Bowe, the SBA attorney in San Antonio."

So a telephone call was made last week to Mr. Bowe who told me:

"This is still an approved loan; we are just waiting for the company to complete the project. Disbursement of the government loan money cannot be made until the completion of the job."

I asked Mr. Bowe if he had heard from any of the principals involved in the company and he said that Louis Terraza, one of the original planners, was in his (Bowe's) office that day and told him the plans are still working to construct a plant in Hondo.

Almost at press time Wednesday, I reached Mr. Terraza by telephone and he told me: "Plans are still on and we expect to have a more definite statement next week."

He said he would have Gerald Alexander, the local manager, contact me Monday. Therefore, I hope we have a good report in next week's Anvil Herald.

### Burglaries solved

The Hondo Police Department has apparently solved three recent burglaries and a theft with the arrest of a four-some of Hondo teenagers.

Police said they made the first arrest of 19-year old Ray Gallardo of 2310 Elaine Drive, Hondo, on a charge of taking a change purse containing \$125 from the car of a friend.

The purse and money belonged to Mrs. Isabel Sandoval. The money was found in the bathroom of the home of the youth's grandmother.

Police said under questioning Gallardo implicated three other youths in three recent burglaries. They are 17-year old Santos Ledesma, of 1512 17th St.; 18-year old Jose Santillano, Jr. of 2111 17th St.; and a 14-year old juvenile who was just recently released on parole from the Gatesville State Boys School.

Ledesma was charged with the burglary of the Hi-90 Drive-In, Hilmer Mueller's Enco Station and Al's TV.

Santillano was charged only with the Hi-90 and service station burglaries, and the 14-year old youth allegedly broke into the TV repair shop with Ledesma.

Officers recovered most of the items taken in the three burglaries.

Two of the youths are free on bond. Ledesma posted \$6,000 bond, and Gallardo \$2,000. The others are being held in the Medina County Jail in lieu of bond.

The 14-year old will be held in juvenile authorities and returned to the State Boys School in Gatesville, according to Police Chief Jerry Williamson.

### Judge Noonan

Continued from Page 1

George Noonan's son, Ralph, began a career which saw him serve County and District Attorney, then County Judge of Medina County, over a 50-year period which ended with his retirement several years ago. He is still recognized as being the youngest county judge ever elected in Medina County.

A member of the Catholic Church, Noonan was a long-time member of the State Bar of Texas.

A rosary was recited on September 5 at St. John's Catholic Church in Hondo. His funeral was held later the same day at St. John's with Rev. George Steubben, pastor of St. John's Church, presiding. Rev. Robert Silverman of San Antonio assisted.

Interment was in St. John's Cemetery. Pallbearers were Rodney R. Noonan, George H. Noonan, Jerome Noonan, David Highsmith, Mark Blasing and Lyle Blasing.

Funeral arrangements were directed by Guinn-Horger Funeral Home in Hondo.

Twelve Japanese girls in bright kimonos will offer visitors a tempting oriental dish --chicken Teriyaki. Ten hours in preparation, it is a barbecued chicken fixed like Shish Kabob and served with rice and soy sauce.

A visitor to the "Night in Old San Antonio" area will have a wide selection to choose from--slices of watermelon and pineapple to corn on the cob. For the Mexican flavor you can select tortillas con frijoles (flour tortillas with mashed beans), bunuelos, tortillas with cheese and hot sauce, tamales, Quesadillas, chaulapas and chili.

A group of Jewish women, representing the San Antonio Jewish community and their organizations will bake and serve festive holiday pastries. They will build and decorate the "Sukkah", which is a temporary structure covered with foliage, as a symbol of the wanderings of their ancestors in the wilderness of Sinai.

they might have been, but with practice and experience, they should jell into a replica of last year's machine. The strongest showing of the offense was an 80-yard scoring drive early in the scrimmage, with Keith Ligon chalking up a 40-yard run.

Owl ball carriers crossed the goal line twice during the scrimmage.

Injuries have been light in the Owl camp this year, but

one which may be significant Friday night is an ankle injury of undetermined severity suffered by quarterback Jimmy Prescott in a Labor Day practice session. He is now rated a questionable starter, depending on how quickly he can heal.

In other developments this week, team captains have been selected and include Keith Ligon, Mark Buescher and Terry Mechler.

### D'Hanis pecan exhibit wins

Pecan exhibits from the Holy Cross Parish Pecan grove in D'Hanis won three places in the agricultural department and in the frozen food department at the 84th annual Gillespie County Fair in Fredericksburg August 25-27, 1972.

The Mahan variety placed third with its cluster of six pecans, while Harold Kusenburger, Stonewall, placed 1st and 2nd, with his native clusters of 11 and 8 pecans, respectively. The native cluster took the Grand Champion over some 20 other cluster entries.

In the frozen food and vegetable department the Church's Imperial variety took 1st place and the Unknown Hybrid variety took 3rd place. Each exhibit had to be one pint of shelled pecans.

# Janet Lynn Hansen is bride of Lynn Ray Neuman

In a double ring ceremony, wedding vows were exchanged between Miss Janet Lynn Hansen of Weslaco and Lynn Ray Neuman of Hondo at 3 p. m. in the First United Methodist Church of Weslaco on August 12, 1972. Rev. Leroy Russell, Pastor, officiated in front of a large altar arrangement of yellow gladiolas and yellow and white chrysanthemums. White candles were placed on both sides of the altar and on the floor.

Parents of the couple are Mrs. Harold Vernon Hansen and the late Mr. Hansen of

Weslaco and Mr. and Mrs. Clarence Neuman of Hondo. Traditional wedding sections were played by organist, Gary Davis.

The bride, given in marriage by her grandfather H. Louie Hansen, was attired in a gown with round-necked yoke and short puff sleeves of white eyelet. Her skirt was full-length A-line of white crinkled polyester with beaded belt at the waist. She wore short white lace gloves. In her hair was a band of yellow rosebuds and white mums and she carried a bouquet of yellow rosebuds and white mums.

Maid of honor was Agnes Skrobarcek of Refugio. Bridesmaids were Lillian Stanford and Ellen Hansen and Karen Hansen, sisters of the bride. The bride's attendants wore identical full-length gowns of yellow dotted swiss with ruffle sleeves, empire waist accented by lace and full flounced skirt. They wore short white gloves and carried bouquets of yellow chrysanthemums.

Serving his brother as best man was Charles L. Neuman of Hondo. Groomsmen were

Dennis Neuman of Hondo, brother of the groom; Dale Hansen, brother of the bride; and Gordon Bohmfalk of Hondo. Bill Mattar and the groomsmen served as ushers.

Following the wedding ceremony, a reception was held in the church youth room. The bride's table held a four-tiered cake with sugar spun roses and the bride's bouquet. The book table was decorated with bridesmaids' bouquets and a single candle. The groom's cake was chocolate and coffee was served from a brass urn and punch from silver punch bowl.

Assisting at the reception were Mrs. Al Hansen, Hans L. Hansen, Tom Treasure, Gordon Watsby, Douglas Bohmfalk and Charles Neuman, and Misses Lori Hansen and Linda Hansen.

For their wedding trip to Corpus Christi, the bride was attired in a street-length dress of green and white bias plaid with V-neck and ruffle sleeves, with white accessories.

The newlyweds are now making their home in Kingsville where both are attending Texas A&I University. The bride is a 1969 graduate of Weslaco High School and is a senior mathematics major at A&I. Her husband, a graduate of Hondo High, is an agricultural mechanization graduate of A&I and is now working on his Master's there. He is a member of the honorary agricultural fraternity, ATA.

Out of the Valley guests attended from Hondo, Wichita Falls, Houston, Fort Stockton, Dunlay, Lake Charles, La., and Austin.

## Graff-Billiot vows said in Lutheran Church

Marriage vows were exchanged by Miss Kathy Marie Graff and Stephen Frank Billiot Saturday evening, August 19, 1972 in St. Paul Lutheran Church, Hondo. Rev. A. M. Hannemann officiated at the double ring ceremony in a candlelight setting.

The bride is the daughter of Mrs. Robert J. Graff, Sr. and the late Mr. Graff of Hondo. Parents of the groom are Mr. and Mrs. Frank A. Billiot of Refugio.

Mrs. Chester Schmidt played traditional organ music. Baskets filled with white gladiolas, yellow and white daisies, blue mums, clouds of baby's breath and ivy highlighted the altar decorations. Two candelabras holding tall white tapers entwined with ivy stood behind the baskets. White bows marked the pews.

The bride given in marriage by her brother, Robert J. Graff, Jr., wore a full-length gown of pale ivory chiffon and re-embroidered bridal illusion. Lace appliques resembling roses combined with a scalloped edging detailed the high neckline, empire bodice and long French cuffed sleeves. The flared skirt and train were also accented with rose appliques and seed pearls. Her fingertip veil of bridal illusion fell from a Juliet cap also beaded with seed pearls. She carried a bouquet of white and yellow daisies accented with one large white orchid, baby's breath, and ivy streamers.

Attending the bride as maid of honor was Miss Cindy Schuehle of Hondo. Bridesmaids were Misses Phyllis Fletcher of Eagle

Jennifer Lee Bookout

## Susan Seifert is graduate

Miss Susan Elizabeth Seifert recently received her Bachelor of Arts degree of Interior Design from Texas Tech University in Lubbock.

Miss Seifert is presently employed as an interior designer for Scott Pice Designers, an office designing firm in Dallas.

Susan is the daughter of Mr. and Mrs. John L. Seifert of Hondo.

## Engagement announced

Mr. and Mrs. John S. Bookout of Birmingham, Alabama, announce the engagement of their daughter, Jennifer Lee, to William Roy McAllister, son of Mr. and Mrs. Roy L. McAllister of Decatur, Alabama.

Grandparents of the bride-elect are the late Mr. and Mrs. John Thompson of Gardendale and the late Mr. and Mrs. John R. Bookout of Birmingham.

Miss Bookout is a graduate of Banks High School and is employed by South Central Bell Telephone Co. Mr. McAllister is the grandson of Mr. and Mrs. Charlie Ward of Decatur, Mrs. Hattie Britton of Huntsville, and the late John McAllister of Tuscaloosa.

The prospective bridegroom is a graduate of Decatur High School and will graduate in December from the University of Alabama.

The wedding will be December 23rd at 85th Street Baptist Church, Birmingham, Alabama.

## Goodwin-Muennink wedding vows exchanged in double-ring ceremony

Dana Marlene Goodwin and Glenn Franklin Muennink were united in matrimony Saturday, July 22, 1972 at 7 p.m. in double-ring ceremonies at Los Angeles Heights United Methodist Church in San Antonio.

The bride is the daughter of Mr. and Mrs. Bill C. Goodwin of 2230 Vance Jackson, San Antonio. She is a graduate of Thomas Jefferson High School and also attended San Antonio College. The groom, a student at Texas A&I University, is the son of Mr. and Mrs. Franklin Muennink of 1205 Ave. K, Hondo.

Presiding at the ceremony was Rev. L. S. Dubberly, pastor of the New Fountain Methodist Church.

Maid of honor was Miss Sharlene Tondre of Castroville. Bridesmaids were Misses Sarah Macow, Houston; Miss Joyce Williams, Austin; and Mrs. Steve Dykes of San Antonio.

Best man was Bobby Hartung of Hondo. Groomsmen were Rusty Loftin of Kingsville; Bill Bain, Devine; the groom's brother-in-law; and

Duane Wiemers of Hondo, the groom's cousin.

Ushers were David Goodwin of San Diego, California, brother of the bride; Charlie Mumme, Hondo, cousin of the groom; and Gary Wheeler, Corpus Christi, cousin to the groom.

The bride's father, Mr. Bill C. Goodwin, gave her away. She wore a floor-length gown of white satin designed with a high neckline, empire waistline and long sleeves. The bodice and cuffs on the sleeves were covered with lace. Tiny buttons accented the back of her dress. Her halo headpiece was fashioned of lace and held a train-length veil of bridal illusion and lace. The bride carried a cascade of white orchids, white roses, stephanotis and baby's breath.

The bridesmaids wore identical floor-length gowns of turquoise checked gingham with daisy trim. Each was designed with empire waistline, short puff sleeves and a ruffle hem. Baby's breath was placed in their hair. Each carried a nosegay bouquet of white daisies, ivy

and baby's breath.

The church was adorned with an arrangement of white daisies, fern, and baby's breath decorating the altar. Two candelabras covered with ivy and large white bows were placed on each side of the flower arrangement while a third candelabra was placed in front of the flower arrangement. The candles were lit by Gary Williams of Floresville, the bride's nephew, and Ronnie Muennink of Hondo, the groom's brother. The pews were marked with white bows.

Music was provided by Mrs. Bill Bain, Devine, sister of the groom. She played the nuptial music and accompanied Mrs. Douglas Bohmfalk in "Follow Me".

A reception for the couple was held at the Wonderland Town Hall. Mrs. Charlie Mumme of Hondo registered the guests. A four-tiered wedding cake trimmed with yellow roses was served by Miss Debbie Muennink, the groom's sister; and Miss Diane Schneider of Castroville.

The punch was served by Mrs. Bill Bain. The chocolate groom's cake in the shape of a boot was served by Mrs. Steve Soles of Tucson, Arizona, sister to the bride. Cindy and Lori Burns of San Antonio, cousins to the bride, passed out the rice bags to the reception guests. Leon Frazier and The Silver Dollar Band provided western music.

Following a wedding trip to New Orleans, the couple made their home at 130 Corral Space 75, Kingsville, Texas 78663.

We'll review your farm loan annually--to make sure you're getting the lowest possible interest rate.

With the Federal Land Bank's Variable Rate Plan, your mortgage is reviewed every year to adjust the interest rate to meet current economic conditions. When interest "floats" in this manner, you pay according to prevailing rates in the money market. What could be more fair?

This new concept in farm and ranch financing still gives you the traditional Land Bank advantages. You may prepay part or all of the loan at any time without penalty. You can make the loan for extra years . . . to keep payments small and easier to handle.

Why be tied to an inflexible interest rate . . . when there is a loan plan designed to always give you the lowest interest rate possible. We would be glad to explain all the facts about the Federal Land Bank's Variable Rate Loan Plan at your convenience.

## Judges had difficult time

Imagine how difficult it was for the Miss Hondo Pageant judges to narrow their selection to one winner when they saw these five girls and all the other contestants in the Saturday night event sponsored by the Hondo Lions Club. Top five contestants included, left to right: Marcy Mueller, daughter of Mr. and Mrs. Hilmer Mueller; Diane

Lively (the winner), daughter of Mr. and Mrs. Edmond Lively; Rene Zinsmeyer (second runner up), daughter of Mr. and Mrs. Jerome Zinsmeyer; Melissa Muennink (first runner up), daughter of Mr. and Mrs. John Muennink; and Mariette Aelvoet, daughter of Mr. and Mrs. Rene Aelvoet. (Photo by Ted Mendoza)

## Tax estimates due Uncle according to Schubert

Many taxpayers may unknowingly be in trouble with Uncle Sam for failing to file an estimated tax declaration for 1972 at the time of filing their 1971 tax return. And, the September 15 deadline for paying the third installment on this, or originating an estimated tax declaration, is sneaking up fast, according to John Schubert, local manager for H&R Block, America's largest tax service.

Also, according to Schubert, there may be taxpayers who will not be required to pay estimated tax although they were required to in past years. The Revenue Act of 1971 changed many of the ground rules.

"Now," Schubert stated, "a declaration of estimated tax will be required only if the taxpayer has more than \$500 in income which was not subject to withholding and his estimated tax liability is more than \$100." Prior

rules required the filing of an estimate if the taxpayer had \$200 from other than wage income and his estimated tax was more than \$40.

"Even though all income is from wages, if wage income is \$20,000 or more (for single taxpayers, those qualifying as a head of household, surviving widow or widower, and married taxpayers with only one spouse working) and the estimated tax liability is \$100 or more, they should still file an estimated tax declaration," cautioned Schubert. "And, the same would be true for married couples when both are employed, if one has wages in excess of \$10,000 - if the estimated tax is \$100 or more. If married and not entitled to file a joint return, the amount is \$5,000, with the same \$100 or more required in estimated tax."

"Actually, if taxpayers have at least 80% of their final tax liability on deposit - either through withholding or estimated payments - there is no penalty involved," Schubert said. "But the tax-

payer that wants to play safe and avoid a penalty for underpayment should definitely check the new law."

SEES OLYMPICS--Spec4 Jerry Cortez, son of Mr. and Mrs. Ray Cortez of Hondo, is stationed in Germany and has had the pleasure of taking in some of the Olympic competition. He has sent his father cigarettes, a lighter and matches bearing the Olympic symbol. "We thought we saw him on television Sunday night while we were watching the boxing," Ray said Monday. "He will be at the September 8 events, also." Jerry graduated from Hondo High School in 1970.

'homemade' spray rig

A business dedicated exclusively to producing and applying liquid fertilizers is Leon's Seed and Fertilizer, Inc.

They can provide any analysis of fertilizer and apply it in any amount per acre, thanks to an application rig which Leon and his three associates, Justin Jungmann, Milton Tschirhart, and Mike Perales, designed and built themselves.

Built around a Dodge truck chassis, the rig can cover 35 acres per hour on special flotation tires for diminished soil compaction. Out of the twin booms

sprays a 50' swath of fertilizer, marked at both ends with dye markers to prevent skips and overlaps.

Around Castroville, and as far away as La Vernia, the rig has been used for small grains--oats and wheat, coastal bermuda, and for stubble-treating corn and milo to speed stalk deterioration.

For row crops, the nozzles are made to fit 36" rows. Leon's has been in business in Castroville for 12 years now, and they still serve their customers' fertilizer needs quickly and efficiently.

# Harmon says everybody picks Nebraska No. 1

The longest winning streak in college football is in real danger of being broken on this first Saturday of the 1972 season. The Toledo Rockets, winners of 35 straight without a loss, face the newest team to be accepted into major college ranks, the powerful Spartans

of Tampa. We rated Toledo #26 among major colleges last fall. Tampa was ranked second in the college division. The Rockets are favored to win their 36th by eight points, but it could also be the end of the string. Four teams in last year's top ten start the season very

conscious of retaining national supremacy. Everyone's 1971 National Champion, Nebraska, meets U.C.L.A. in Los Angeles Saturday night. Second-ranked Alabama, humiliated just a bit by the Cornhuskers in last January's Orange Bowl, will try to "re-bound" against Duke.

Another of the Big Eight standouts last fall was Colorado. The Buffaloes tangle with the California Bears in 1972's first outing for both clubs. Colorado was ranked 6th in the final Harmon ratings.

Arizona State finished in the #10 spot last fall. The Sun Devils draw the toughest assignment of the four - Houston. The Cougars were ranked 13th, so it may very well be the top game of the day.

Fifteenth-ranked Southern California meets 19th-ranked Arkansas in a first-ever meeting between the two schools. Incidentally, that was the lowest final rating of an Arkansas team in our ratings since 1967.

So... here are the picks for the top five games of Saturday "Number One": It looks a bit lop-sided, but National Champ Nebraska will pick up right where it left off and eclipse U.C.L.A. by 34 points. Alabama is 31 points stronger than Duke, and the Colorado Buffalo should bury the California Bear by 21 points.

In what could be that real cliff-hanger, Arizona State will nip - or maybe outlast - a better word - Houston by just five points. Arkansas-Southern Cal is almost a toss-up. We'll go with the Trojans by two points.

Sixteenth-ranked Washington and Sonny Sixkiller break ground for the new season against Pacific. And it appears that the ground won't be the only thing broken... Pacific is a 32-point underdog.

## Gun Club to meet

The Medina County Gun Club will meet at 7:30 p.m. Monday, September 11, at the indoor range. An informal pistol match will be held.

Business to be conducted includes plans for construction of outdoor range facilities, assignment of instructors for the Junior Rifle Club and a class for women interested in learning rifle marksmanship.

## D'Hanis to open '72 season in Sabinal

The D'Hanis Cowboys will take on the Sabinal Yellowjackets in Sabinal on Friday, September 8, at 8 p.m.

The game will be the season opener for both teams, and the renewing of an old rivalry between the neighboring towns.

In last year's contest in D'Hanis, the score remained tied in a 0-0 deadlock until five minutes remained in the final quarter, when linebacker Mike Colvin grabbed a Cowboy pass and went in for the score. Another touchdown following a 30-yard run by Dan Tristan put the game away for the Yellowjackets, 12-0.

Sabinal, who have compiled identical 2-8 seasons in the last two years, will try to break out of the habit and win a district crown in District 30-A, which has no champion from last year. They will have Mike Colvin back this year, along with big back Van Pelt. They're a big, powerful team.

D'Hanis Coaches Butch Woolls and Pete Angermiller will try to repeat the success that brought the Cowboys to a 6-3-2 bi-district championship before the controversial Agua Dulce Regional championship game which D'Hanis literally "lost in the dressing room", due to illness believed caused by faulty heating system ventilation.

The Cowboys will start the following players on Friday night: Split End, Fidenicio Garcia, sophomore; Left tackle, Donald McGee, junior; Left Guard, David Gallegos, senior; Center, David Nester, also a senior; Right Guard, Allan Huser, sophomore; Right tackle, Doug

Kempf, sophomore; Tight End, Charles Hood, sophomore; Quarterback, Bobby Joe Rothe, junior; Halfbacks, Ronnie Koch, sophomore, Ricky Rothe, junior, and Spencer Burrell, senior; Slotback, Richard Rothe, sophomore.

The same boys will see action also on defense, with the addition of Noseguard Lee Roy Reyes, freshman.

Other players in the Cowboy roster include Seniors David Santos and David Villareal, Junior Albert Rodriguez, Sophomore Frank Sandoval and Joseph Nester; and Freshmen Richard Hernandez, Jerry Lopez, Kenny Lutz, Daniel Rodriguez and Louis Sandoval.

Managers are Robert Sandoval and Bennie Torres. Injuries have been relatively heavy at D'Hanis, where any injury really hurts, in more than one way. David Santos and Albert Rodriguez are both out with broken legs, and Joseph Nester will not see action Friday night due to a muscle pull in his leg.

## Band Preview Reset

The Owl Band Preview, originally scheduled for last Tuesday evening, was postponed because of the rains of that afternoon.

Hondo Band Director Billy A. Harrell announces that the Preview has been rescheduled for next Tuesday, September 12, at 7:45 p.m.

The same invitation remains open for everybody to come listen to a top-notch band.

# Tommy Finger's saga sparks memories

by Jack Finger

D'HANIS--When I was a lad growing up here in the 1930's the name of Tommy Finger was a household word. At least in my household it was.

My baseball-loving father's affection for this gifted nephew was hero-worship in its purest form. At meal-time and many hot-stove league sessions in the A. J. Finger Hardware and Lumber Co. store, I listened to the songs of his praise. With each telling the lyrics became richer with embellishment.

They were fond of recounting how, when "Tawm" was only 13 he was inserted into the lineup of the town baseball team. Playing in right field on the diamond then located about a mile north of town, he pounced on a line-drive "single" and fired it to first base for the out.

My first recollection of Tom was on a morning when a crowd of people had gathered in front of the post office. They were watching a shooting exhibition by a southpaw sling shooter. Tom, I suppose in his early 20s then, had borrowed a sling shot and was bouncing rocks with awesome accuracy off a utility pole across the street. Later, he finished the impromptu exhibition by picking up rocks and firing them into the post.

The first time I ever saw him pitch was in the early 1930's against Knippa. At the time, I was bat boy for this great D'Hanis team that included pitchers Tom Koch, Raymond Wolff and Harold

Nester; catcher and manager Amos "Smut" Finger; first baseman Jim Finger; second baseman Joe "Gootch" Finger; Mitchie and Allen Koch at shortstop and third base; and Francis "Sonny" Carle, Joe "Doc" Mueller and usually one of the pitchers in right field.

If memory serves, the game was played in or near a cotton field on the farm of Walter Schawe west of Knippa.

Before game time Manager Smut Finger handed a ball to the lefty and asked: "Tawm, how do you feel?"

"Pretty tough, Smut," he replied shaking his head and patting his stomach.

"Well, go as far as you can anyway," said the manager.

Still protesting, Tommy Finger started the game and blew the ball by the Knippas all afternoon. It was a long evening. I don't remember the score, but I do remember picking up a lot of bats and chasing a lot of fouls.

I remember this incident so vividly because for days and even years later, I puzzled over why a fellow who felt so "tough" was so reluctant to play.

Tom Koch was the ace of the staff, however. He had a smoking fast ball and a lot of breaking stuff including a screwball. Koch's reputation spread quickly in 1929 when he beat the immortal Dizzy Dean, 1-0, in a Highway 90 League game.

Dean, a soldier stationed at Fort Sam Houston, "lived out" on Sundays and this day he was in a Castroville uniform. The game was a Highway 90 League classic and will still be remembered by some of the oldtimers.

A couple of years later, as the story goes, a professional baseball scout appeared in D'Hanis in search of a pitcher by the name of Tom "Somebody".

"I was working on the

railroad at the time," Tom Finger related, "and they came and got me and said somebody wanted to talk to me. He asked if I'd like to try out with Corvus Christi and I said 'yeah'. I found out later he was really looking for Tom Koch."

Tom made the grade with Corpus Christi and after five years there he finally earned a promotion to a higher league, Lafayette, of the Evangeline League.

In 1940 he led Lafayette to the playoffs with a 19-9 record that included a 17-inning contest in which he pitched the entire route, winning 1-0 over Alexandria.

Despite a serious hearing impediment, Tom enlisted in the Air Force in 1942 and was sent to Randolph Field. There he was sought out by the baseball manager, Bibb Falk, to help entertain the troops.

Entertain them he did. In 1943 he was honored as the Service League's top pitcher after winning 22 and losing only four.

His hearing problem brought on one of his most embarrassing moments. One day while taking his pre-game warmup pitches on the mound, a three-star general walked into the park and someone shouted "Tenshun!" Everyone in the park braced except the partially-deaf Finger who fired the ball into the backstop and yelled:

"What the h--- is going on here, anyway!"

In 1944 he married the former Ann Risinger of San Antonio and took a Civil Service job at Fort Sam Houston. But the lure of baseball was too great and American League champion St. Louis Browns invited him to train in 1946 at Pittman-Sullivan Park. Tom eventually signed a San Antonio Mission contract but an ulcerated stomach that eventually required surgery forced him back into retirement. His stint with the

Missions was brief and undistinguished.

The following year, however, he received a call from his old friend and former manager at Lafayette, Bobby Goff. Goff coaxed him out of retirement and lured him to the Wichita Falls Spudders for whom he was general manager.

The two years that followed, 1947 and 1948 when he was 21-16 and 20-10, respectively, were perhaps the happiest Tom ever spent in professional ball.

Certainly, he was the toast of Wichita Falls. A thick scrapbook, replete with newspaper clippings detailing his performances with the Spudders, was maintained by Ann. On these faded, yellow pages the story of Tom Finger's best years are documented.

Besides the glories and the heartbreaks, they tell of Wichita Falls' intensive love for this favorite son of Medina County. One brief account is especially revealing of his popularity:

On May 16, 1948 he was playing left field (he was often used in the outfield and as pinch hitter because of his hitting ability). In the third inning he was hit in the throat by a pitched ball and was carried unconscious to the hospital.

Bill Sims, sports editor of the Wichita Falls Record, wrote:

"A deathly pall settled over the crowd and there was little rooting through the remainder of the game. But when word was received that he was not hurt seriously, there followed a tremendous, ear-splitting ovation."

The following year Sims wrote again: "When all else fails, bring on Tommy Finger." "Followers of the Wichita Falls team learned that lesson as long ago as last year when the lean left hander played such a prominent part in bringing the Spudders

into the first division.

"They learned the lesson again in 1948 when the soft-drawing Texan from D'Hanis racked up 21 victories to become the only 20-game winner in the Big State League this year.

"Thus Finger kept Wichita Falls' hopes alive, 3-2, in the playoffs."

In 1949 Goff moved to Dallas as general manager of Dick Burnett's Eagles managed by former major leaguer Charley Grimm.

Dallas, after spring training at New Braunfels, opened the 1949 season in dramatic fashion. With three quick victories, Tom Finger established himself as the ace of the Dallas team that brought a fantastic 15-1 record into San Antonio on May 10.

A total of 11,070 paying fans, including countless fans from Medina County, pressed into Mission Stadium to see the veteran Tommy Finger go out to do battle with a young Mexican sensation, Procopio Herrera.

The outfield was shortened by a good part of the overflow crowd standing and sitting against the outfield fence. Special ground rules prevailed.

Fans of the 1940's will remember this game. Herrera silenced the big bats of Jerry Witte, Buck Frierson, Blas Monaco, Billy Serena and the one-armed sensation, Pete Gray. Procopio gave up four hits to win the decision, 2-0.

But the little Medina County lefty, described by writers as "crafty, baffling and feeding the Missions an assortment of twisting, dip-

ping, zipping stuff," matched his adversary nearly pitch for pitch until the 8th inning when he was lifted for a pinch hitter.

The grand climax of Tom's baseball career came a year later on April 9, 1950 when he pitched before the largest crowd ever to see a minor league game and in the only game ever played in the Cotton Bowl.

Burnett, in a dramatic bid to win the all-time opening day attendance record, had rented the Cotton Bowl for one night and had signed such immortals as Dizzy Dean, Ty Cobb, Charley Gehring and Duffy Lewis to appear briefly in the opening lineup.

After the first out, with 53,578 fans looking on, Tom Finger strode out to relieve Dean on a makeshift mound with the right field fence a mere 200 feet behind him.

Burnett won the attendance record but Tommy lost the decision, 10-3, as the Tulsa Oilers sent too many pop flies over the short fence.

Soon after, his frail body straining under the rigors of professional sports, and convinced that at the age of 35 his chances of making it to the major leagues were slim indeed, Tom and Ann Finger gave up the grind in favor of a quieter life here in this small town.

In the years that followed he played for and managed the town team in the Highway 90 League while serving as assistant and then post-master.

## Floresville Tigers

Floresville ranks as district favorite in its new-for-1972 niche back home in AA. The Tigers who last year compiled a very respectable 9-1 record in class AAA and barely missed out on a district championship, should take District 29-AA crown this fall, against the likes of Yorktown, Kames City, Kenedy, Goliad and Poth.

While on the subject of standouts, circle the names of Gayland Pelech, Perez's partner in a tough running game. In the line, watch tackle William Harris and guard John Tackitt.

The Tigers are ready to play ball, or at least they should be.

Last Friday, they scrimmaged the New Braunfels Canyon Cougars, from District 14-AAA. The week before they matched touchdowns at two apiece with Judson's Rockets, but the defense was the star unit, capitalizing on Judson errors and gang tackling with spirit.

All in all, a solid AA team, with adequate defense and a good running game.

## Un-official Weather

Taylor-Chapman Service

The rain that ruined an evening for the Owl Band Tuesday brought better than an inch to some area ranchers, reports the Taylor-Chapman rain service.

Among those lucky enough to enjoy a dust-settler were Mrs. Henry Boehle, with 1 inch; Frank Graff, 1.50; Tommy Hollmig, .80; Floyd Saathoff, .80; J. & D. Finger, .95; Al Hollmig, .95; Rancho Chico, .20; Jack Been, 1.50 and R. Finger, .80.

The City of Hondo received .80 inch.

According to the boys with the sophisticated equipment, the rains are all over for the time being. No doubt the centizos are pooped out.

# Jeffers completes training

SAN ANTONIO--Airman Michael A. Jeffers, son of Mr. and Mrs. Bobby G. Jeffers of LaCoste, has been assigned to Sheppard AFB, after completing Air Force basic training.

During his six weeks at the Air Training Command's Lackland AFB, he studied the Air Force mission, organization and customs and received special instruction in human relations.

The airman has been assigned to the Technical Training Center at Sheppard for specialized training in aircraft maintenance.

Airman Jeffers is a 1972 graduate of Medina Valley High School, Castroville. His wife, Charmaine, is the daughter of Mr. and Mrs. Delvin Bippert of Rt. 9, San Antonio.

## DOG CLUB TOURS

The Hondo 4-H Dog Care and Training Club toured the Hondo Veterinary Hospital Wednesday, August 30.

Dr. Judge E. Sandusky was tour guide for the group. He demonstrated how poodle puppies' tails are docked and dew claws removed.

The poodle puppies used in the demonstration are part of a 4-H breeding project of Christ, Douglas and Valerie Cole. Other 4-H'ers having breeding projects are Dawn, Leonard and Travis Wernette, with the Spitz breed.

Michael Jeffers

the tour were Alice Geuea and Kay Martin, Jr. leaders; Nancy Martin, Bonnie Geuea; Chris, Douglas, and Valerie Cole; and Mrs. Rothe Martin and Mrs. George L. Cole, adult leaders.

New Parish Hall

Members of the Yancey Parish Hall committee pause for a photo as they inspect the new building, which is nearing completion. Now comes the hard job of fund-raising. Shown left to right are Treasurer Sostenes Garcia, Finance Chairman Francisco Pedroza, Vice President Lupe Sanchez, Secretary-reporter Eugenia Pedroza, President Domingo Gauna, and Pastor Rev. George Steubben.

St. John's sets religion classes

St. John's School of Religion has set September 9th and 10th as registration day for all its students.

Registration will be held on these dates after each Mass in the Parish Hall for kindergarten through 12th grade students.

Registration for the TMR and EMR (Trainable mentally retarded and Educable mentally retarded) will be held later.

Classes for grades 1-6 will begin Tuesday, Sept. 18th, and Wednesday, Sept. 19th, at St. John's School. All children living east of Avenue M will attend on Tuesday from 4-5 p.m. and west of Avenue M on Wednesday from 4-5 p.m. Children living in the country will choose their day to attend.

Grades 7-12 will begin on Wednesday, Sept. 20th, 7:30

to 8:30 p.m. at assigned homes or classrooms.

A registration fee of \$5 per family per semester is being asked to help cover the cost of materials.

Sister Anne is our religious co-ordinator for the year and St. John's Religious Board feels that great efforts have been made to give the best religious training to our children if you, the parents, will only see that they register and attend classes regularly.

Bond sales hit total of \$78,138

## Regional director named

Bob Nowlin, Regional Director of the American Heart Association, visited Medina County Thursday. Medina County is in Region 5, which includes 32 other counties to the southwest and northwest.

Medina County will have about 52% of deaths this year resulting from heart attack and stroke. The American Heart Association has professional and public education programs through a county-organization basis which could and should save lives.

The regional director desperately needs volunteer help in administering these programs. If you would like to help with the organizing of

the county AHA, please drop a card to Box 3845, San Angelo, Texas, 76901.

Bob Nowlin is a new regional director for AHA. His office is located in San Angelo in Tom Green County.

The AHA has year-round programs available to schools, hospitals, and civic clubs and organizations. There are also available numerous types of educational bulletins on diet, stroke, heart and blood vessel diseases, open heart surgery, recovery from heart attack, how smoking affects the heart, heart pacemakers, and other titles.

There is a need for a C. P. R. (cardio-pulmonary resuscitation) training program. CPR is very important in event of cardiac arrest, or the stopping of the heart beat.

One person giving CPR can artificially pump blood to the brain and artificially breathe for the cardiac arrest victim.

Many lives could have been saved if CPR had been taught to every person 14 years old and over.

People are needed to help get these programs to other people.

Bob Nowlin

## Social Security

QUESTIONS & ANSWERS

QUESTION: I heard that it is possible to conduct much business with the Social Security Office by telephone. Will you tell me how I can save a trip to the office?

ANSWER: Those planning to claim social security benefits can speed up the process by telephoning the office several months before filing a claim. A telephone call will help the claimant in

gathering required proofs so that he can obtain his benefits soon after he retires.

The office can provide information about sources where necessary documents may be obtained. Also, when the individual is ready to claim benefits, he can file the claim over the telephone and it will be sent to him for his signature and the proofs which will be required.

## Thanks, Union!

College registration time has rolled around again and for Corliss Balzen of Hondo it is a moment to appreciate, for it means renewal of a scholarship awarded her by the International Brotherhood of Pottery and Allied Workers. Here Corliss presents Fidel Sanchez, Brotherhood representative, a letter of appreciation for the scholarship. Her parents, Mr. and Mrs. Chester Balzen, join her in the presentation. ## Devine man enters Air Force Academy

U.S. AF ACADEMY, COLORADO--Robert S. Gardner, son of Mr. and Mrs. James R. Gardner of Devine, is one of more than 1,300 freshman cadets who have entered the U.S. Air Force Academy class of '76.

Cadet Gardner qualified for final acceptance into the cadet wing by completing seven weeks of basic training that included physical conditioning, military and survival instruction and field training at a simulated front-line combat base located near the academy.

He is a member of the largest freshman class in the history of the academy, now in its 18th year of operation with a current total enrollment of more than 4,000 cadets.

The cadet is enrolled in a four-year course of academic study and military training

working toward a bachelor of science degree in one of 21 major fields of interest and a commission as a second Lieutenant in the Air Force.

Cadet Gardner is a 1972 graduate of Devine High School where he was a member of the National Honor Society and salutatorian of his class. He also lettered in track.

## Benefits are high from minimum tillage, SCS says

The Soil Conservation Service is pushing a new conservation practice that can

cause farmers and ranchers in the Medina Valley Soil Conservation District to plow

less and enjoy equal production with less expense. Everett Abbott, local Dis-

trict Conservationist, reports that as a result, there may be less dust in the air you breathe this winter. Or less sediment in your city's water supply. More moisture conservation, higher profits, more free time and less soil loss are some of the benefits to farmers.

"All this is possible because of a new farming system called minimum tillage," Abbott reports. "With minimum tillage, crops are planted without prior land preparation. Weeds are controlled with herbicides. Since the land is not plowed, leaves and stalks from the previous crop are left on the soil surface as a protective cover during the fall, winter and early spring.

"The surface cover is highly effective in preventing erosion. It breaks up the erosive effect of falling raindrops, letting them fall harmlessly onto the surface. The residues also protect the soil from windstorms."

Abbott pointed out that wind-blown dust is our state's largest source of air pollution. He also stressed that erosion produced sediment is our biggest water pollutant, muddying streams and filling natural channels and lakes. "Reducing water and air pollution from erosion has vast environmental benefits," he said.

"And think what scattered seed and residues left on the surface do for wildlife," Abbott said. "In some farming areas, wildlife are almost entirely dependent upon crop residues for food and cover needed for survival during the winter months.

Dove, quail, deer, turkey and many others are benefited by minimum tillage farming."

Abbott points out that farming operations destroy surface residues. If farmers and ranchers can substitute herbicides for cultivation in controlling competition, they can reap the many benefits possible from maintaining crop residues on the soil surface year long. He emphasized that residues keep the soil cooler in summer, warmer in the winter. They reduce evaporation, saving valuable soil moisture. The residue protect young seedlings. The cover also produces better soil tilth and it increases insoak of moisture.

Farmers still plow their land over and over again, more from habit and custom than from actual need. Abbott reports that about six trips across the field can be eliminated with a savings of \$1.50 per trip per acre. This money can be applied to herbicides used for weed control. With the prevention of the tractor rolling across the field so many times keeps down packing and hardpans.

Abbott concluded by saying, "The big reason for using minimum tillage is that it allows a farmer to do a superior job of conserving his soil and moisture." He also pointed out that the Soil Conservation Service has published a new booklet "Minimum Tillage in Texas" and it is available in the Hondo work unit, or write P.O. Box 648, Temple, Texas 76501.

Minimum tillage urged

Minimum tillage by using tractor sweeps to kill the root zone of maize is pictured on the Mel Knecht farm one mile east of Hondo. This is the first process in minimum tillage. The second step would be to use herbi-

cides to kill weeds or undesirable plants. Land could be bedded shallow, but this is an extra trip, extra expense. Residue prevents erosion and holds moisture. (Photo by E. L. Abbott--USDA--Hondo)

Stubborn fire

Who says a fire can't be stubborn! Ask members of the Hondo Volunteer Fire Department about cotton bales that caught on fire in this railroad car Sunday night (or about 3 a.m., Sunday to be exact) and Monday. No matter how much they watered it, they had to come back and do it again. But they finally conquered it. (Photo by Tony Mendoza)

## St. John's school closes; to open with a new mission

When school bells rang yesterday, one bell was notably silent. It was the one which for over 50 years summoned students to classes at St. John's Catholic School.

Yet there will be no requiems said for Catholic-sponsored education in Hondo. Far from dead, it has been "re-channelled" to encompass the needs of young people and adults, of all denominations, for the good of the town.

Father George Steubben, pastor of St. John's, explains it this way:

"With the realization that enrollment for the first grade for 1972 was down to five students, and that there has been a 40% drop in school families since last year, we decided to take some action on re-channelling the school activities.

"After holding discussions in meetings of both the Parish Council and the general parish family, it was decided that the expenses involved, as well as the small enrollment, made it unfeasible to continue the school in its present structure as an elementary school."

The new look at St. John's will be a day-care center, serving all of Hondo, a religious education center for pre-schoolers, elementary, intermediate, high school, and adult members of St. John's, and a self-improvement project where Hondo residents can take classes in conversational Spanish or basic English.

These are all anticipated new uses for the brick school building, which will be studied during the month of September.

What of the two resident nuns, Sisters Ann and Maureen, who have served as faculty members for the school over the past several years?

Sister Maureen has taken

her place in the public school system of Hondo as an elementary school teacher, and Sister Ann, who holds a Master's degree in theology, will coordinate the religious education system of the parish.

St. John's school has seen changes and difficulties in the past as well. After being established in 1893 by two sisters of Divine Providence from Castroville, a diphtheria epidemic in 1894 closed the school, and it was not re-opened until 1921.

In that year, Father Fran-

cis Pallanche ordered the old rectory to be turned into a school, and in 1926 the present school building was constructed.

Since that time, St. John's has contributed significantly to the educational process in Hondo, and provided a quality secular and religious education to many hundreds of area children.

After this year, it will continue to provide a valuable service to the community, but in a new role to fit the new times.

EMPTY HALLS

... will soon be full again with students of all ages.

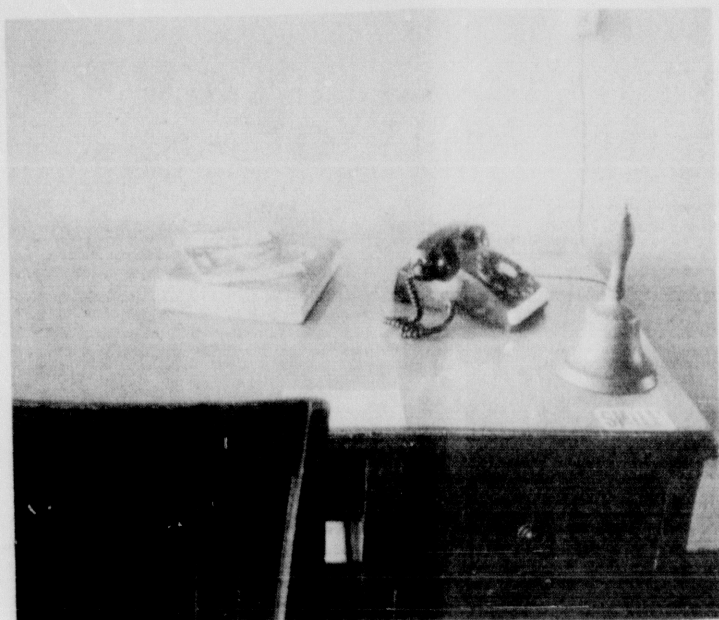

### Hondo students graduate

Sixty-eight students are expected to receive Bachelor's degrees from The University of Texas College of Fine Arts at the close of the summer session August 26.

The tentative degree list, made public by Dean Peter

Garvie, includes the following Hondo students:

Jon Martin Bader, of 1103 28th St., Hondo, Bachelor of Arts in Art; and Lindy Auld's Rothe, Bachelor of Fine Arts.

SILENT BELL

... won't summon kids from recess this year, but as the sign indicates, better days are ahead for St. John's.

## Jack Winkler Motors joins Chevrolet in making history

Jack Winkler, Jack Winkler Motors, Hondo, played a supporting role in helping make automotive marketing history recently ... the sale of 77 Chevrolet cars and trucks within a 100-day period.

The 1,000,000-unit mark was topped with the aid of the more than 6,000 Chevrolet dealers across the country in the 100-day period of April 21 through July 31.

It marked the first time any automotive manufacturer has sold that many cars and trucks in any 100-day period.

"I am proud that our dealership and our customers played a part in this amaz-

ing sales accomplishment," Jack Winkler said. "We believe the record speaks for itself as evidence of the strength of the economy and the importance of the automotive industry in making it strong."

As a comparison to the 100-day mark, it took Chevrolet nearly 11 years (1912 to 1923) to sell its first million cars and trucks, Winkler observed. Last year, he

said, Chevrolet sold a record 3,002,315 vehicles.

He noted that, in the record-setting 100-day span, there were actually only 85 working days. This meant Chevrolet dealers averaged approximately 12,000 vehicles a day to pass the million mark, he said. This pace is about 10 percent ahead of last year's three-million-plus pace, he added, as Chevrolet "sells them as fast as it builds them."

**29¢**

Imagine! One of the best encyclopedias in America for the elementary grades...now yours virtually as a gift!

If you have deprived the young people in your family of the benefits of owning a fine, authoritative encyclopedia because you have resisted the high prices and pressures of door-to-door salespeople, you can now obtain one of the best elementary-grade encyclopedias in America virtually as a gift!

These are the facts: Of the many encyclopedias published in this country, only three (3), including ILLUSTRATED WORLD ENCYCLOPEDIA, are rated and recommended for the elementary grades in compliance with the criteria for reference books established by professional educators and librarians.

Now consider this: Of the three (3) rated and recommended encyclopedias in this vital category, you can now buy the ILLUSTRATED WORLD ENCYCLOPEDIA, all 15 volumes, for a total price of under \$29. The other two famous door-to-door encyclopedias sell for \$200 and \$149.90, respectively.

Because the price differential is so great, we realize that you will want incontrovertible proof that at this incredible price you are getting the original, unabridged, latest edition of ILLUS-

TRATED WORLD ENCYCLOPEDIA. On the basis of truth and good faith, we invite you to buy the first volume for just 29¢, so that you can judge the quality and value of this famous encyclopedia for yourself, without the prodding and pressure of a salesman on your back. Then, when you have made your decision, you can simply buy a volume a week, as you shop for food, until you have acquired all 15 volumes at just \$1.99 a volume or, if you choose, you may purchase and take home the full 15-volume set at once—for the cost of \$27.88, not a penny more!

Illustrated World is America's most enjoyable encyclopedia for young students

To make reading easier, Illustrated World has large, inviting, eye-saver type, with wide spaces on glare-proof paper. To make learning more rewarding, it has literally thousands of colorful pictures. And all articles—unlike those in most encyclopedias—are created to hold the interest of young people.

Illustrated World is fun to read and study. And it will certainly help make your child's all-important experience with an encyclopedia fulfilling—not frustrating.

Illustrated World gives you the extra services you pay for with the expensive encyclopedias

Illustrated World is the only non-door-to-door-distributed encyclopedia that provides the special services you expect from the best in the world.

... SGIP (Student's Grade-Improvement Program). A full one-year subscription to our Research Service. Your child may request and receive detailed, comprehensive reports on any subject he may be studying. Non-subscribers pay \$5 for this service.

... BOOK-OF-THE-YEAR. A compilation of the year's most important news events, designed to keep your encyclopedia up-to-date, year after year. You and your child are entitled to receive this annual supplement at a special discount.

**EXTRA!** full sets on sale incredibly **27<sup>88</sup>**

For the convenience of our customers who do not choose to buy Illustrated World Encyclopedia on the volume-a-week plan, we have complete sets (15 volumes) available, now on sale for only \$27.88. A rare opportunity to enjoy the benefits of this great reference library at once, or to purchase as gifts.

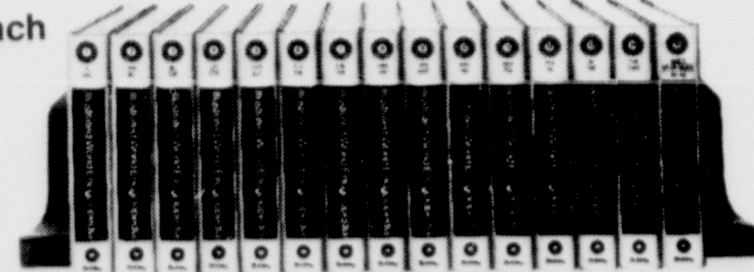

Illustrated World offers volume one for only 29¢!

We make this remarkable low-priced offer to you because we very much want you to have Volume 1 in your home. We'd like you and your child to browse through it at your leisure. If you have another encyclopedia at home already, so much the better. Compare the volumes of both sets. Look at the subjects, the phrasings, the words themselves. See for yourself how Illustrated World is created simply and clearly—to help your child really understand and enjoy working with reference books.

**Buyer Protection Guarantee:**

Whether you buy Illustrated World on the volume-a-week plan, or the full set at once, we guarantee you that you are getting a reference set that is far and away the outstanding encyclopedia value in the world ... and, if you don't agree, return the books within 10 days and we'll refund you every penny.
